What Our Patients Are Saying:

I continue to have my dental needs taken care of at Smile Now Dental Group. They are the best! Always professional, welcoming, and with a sense of humor. They make each visit pleasant and they reassure me that my teeth and gums are healthy. I can smile knowing that my smile is a happy one.

MARIA A

The initial visit was comfortable. As an urgent care walk-in, I was seen quickly. The dentist was able to quickly assess the issue, refer me to the proper specialist, and provide me with medication to avoid further complication while waiting to see the specialist.

ANITA F

I had a great experience with Dr. Cruz. I'm kinda scared of seeing the dentist, and she was very understanding and took things nice and slow. She let me know everything she was doing before she did it. She also told me what to expect before she did anything. Her staff was very helpful and very sweet. Their #1 focus is to make sure you have a good experience, and I totally did. They even have individual computers so when you are sitting in the chair waiting to get your teeth cleaned you can watch a video. I had never been to an office that did this before. It was a nice surprise and it helped keep me calm. I will definitely be back for my 6 month cleaning, and will be totally happy to go.

BONNIE B

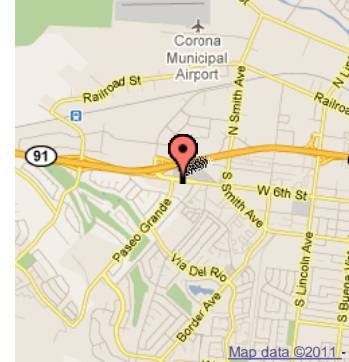

Inside it was beautiful and extremely clean. There is a waterfall right when you walk in and a beautiful fish tank. The ladies at the desk were extremely nice and very helpful. Once they took me to the back, they sat me down in the chair and started a movie for me to watch on a laptop screen right in front of me. This helped me relax. The dental assistants and the dentist were very helpful in letting me know what my choices were but I never felt pressured. When they started the cleaning they were very good at keeping me calm, because I don't like going to the dentist at all. But after finding this place I don't think I will ever say that again. All in all it was a great experience. Oh and they did a great job cleaning my teeth... they are SO white!

BONNIE B

I refuse to take Novacaine to numb me and if I'm sure that made them a little uneasy. But I was very pleased with the service I received.

LUISA B
